

Roadways

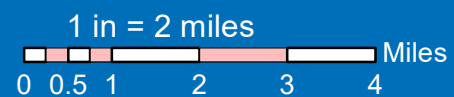

Lincoln County has a diverse network of roads and highways serving within the Lincoln County boundaries and beyond. Lincoln County has two major United States Highways that run north to south. U.S. Highway 321 passes through Lincoln County's center while U.S. Highway 16 runs north to south toward the east portion of the county. Other Alternate U.S. Highways are 321-Business and 16 Business. The US and State roads that play an integral part to Lincoln County are 27, 10, 16, 73 and 150.

Air Service

The Lincolnton/Lincoln County Regional Airport has a progressive air service. This airport is a relief airport for the Charlotte/Douglas International Airport 35 miles away serving corporate customers and private pilots in every possible way. There are two other airport airbase services providing service within Lincoln County. Northbrook International Ultraport has been introducing people to the fun of Ultralight and Light Sport aviation for years. The Denver of the East is a seaplane base service in the Lake Norman Area.

Rail Road System

Lincoln County's rail system is not large but is served in the Lake Norman Area and also as a central arc in the center of the county that loops up into the City of Lincolnton. It is supported by CSX Transportation.
