Sea Express America Corporation, dba as SEA CORP, was founded as a non-vessel operating common carrier (NVOCC) in 1998. The company was built by hard work, industry passion, and the need to provide the best service for our customers. SEA CORP is a global logistics transportation provider, specializing in containerized ocean exports serving ports worldwide with an extensive global agent network. Today, our company services six continents and maintains an extensive global network of agents. Our product offerings include US flag, FCL services, LCL services, export and import services, airfreight services, door to door logistics, intermodal services, special equipment, and domestic trucking services throughout the US.

U.S. exports of goods and services hit an all-time record of \$2.3 trillion in 2013. Nationally, jobs supported by exports reached more than 11 million last year, up 1.6 million since 2009. Launched earlier this month, NEI/Next, a new phase of President Obama's National Export Initiative, works to boost economic growth and support additional American jobs by assisting more U.S. companies of all sizes in exporting to more markets across the globe.
